### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-7 and 9-18 is the inclusion of a charging unit that applies an AC voltage to the pressure belt of a fixing device such that alternating regions of the pressure belt have alternate electric charges, wherein the alternating regions alternate in a direction that the pressure belt advances. This in combination with the rest of the limitations of the claims is found in all of claims 1-7 and 9-18, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claim 19 is the inclusion of a neutralizing unit that neutralizes electric charges on the pressure belt of a fixing device and the recording medium after the toner image has been fixed to the recording medium, wherein the neutralizing unit is a neutralizing charger that applies an alternating voltage to the recording medium to neutralizing the electric charges. This in combination with the rest of the limitations of the claim is found in all of claim 19, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 20 and 21 is the inclusion of a pressure belt of a fixing device that holds a recording medium by electrostatic force and carries the recording medium, and is configured to extend longer than the fixing belt in a direction of dispatch of the recording medium. This in combination with the rest of the limitations of the claims is found in all of claims 20 and 21, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
